LOVE

At certain points in our journey, we are faced with situations that require a decision to be made and an action to be taken...

What Would You Do?

TRUST

COURAGE

You feel your spouse is not putting any effort into building and maintaining a strong marriage. You feel your marriage is suffering as a result, but your spouse seems "unaware" of the situation.

Your 17-year-old daughter, a high school junior, comes home from school and tells you she is 3 months pregnant.

You and your friends went to a concert at a local park. One of your friend's older brother begins passing around a marijuana cigarette so everyone can try it. They are offering it to you to be a part of the group.

After your company holiday party, you notice your boss had a little too much to drink and is getting ready to drive home.

Your roommate has been behind on paying his/her portion of the rent and the utility bills. This is the second month of hearing his/her excuses and you are running low on your savings covering the extra costs.

Decisions and actions based on eternally correct principles, not emotion and impulse, will return the greatest reward

WORK

ABUNDANT HARVEST™ can help!

FAITH

Decisions based on principles such as honesty, courage and responsibility serve as the foundation for actions of success and distinction in the home, the community and the marketplace.

Life is no longer simple and predictable. Unforeseen events in our home, our community and the world cause us significant uncertainty in reaching our hopes and dreams. During times of uncertainty, making decisions and taking action based on eternally correct principles, not emotion or impulse, are critical in ensuring lasting success and distinction for individuals and families.

The intent of ABUNDANT HARVEST™ is to provide families, friends, educators, and counselors the opportunity to openly discuss the often difficult and complex issues of the real world for the purpose of preparing individuals to make effective decisions along the journey of life. ABUNDANT HARVEST™ can open the door to more effective communication between spouses and between parents and children and can serve as a supportive tool for educators and counselors who seek to provide guidance and direction to others as they face the complexity of life today.

ABUNDANT HARVEST

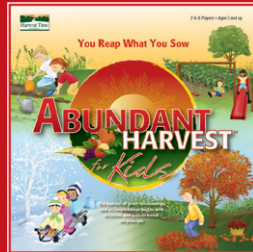

Ages 12 to Adult

The situations presented in this version of the game are directed towards teenage and adult groups. Many of the situations deal with the difficult issues of drugs, family conflicts, peer pressure and the complex and unpredictable nature of being an adolescent and/or adult in today's world.

ABUNDANT HARVEST FOR KIDS

Ages 5 and up

The situations presented in this version of the game are directed towards children who are learning the importance of making decisions that are based on principle. The scenarios provide parents, caregivers and educators the opportunity to teach children, and allow children to begin to develop and apply principle-based, reasoning skills as they work their way through situations common in today's world.
